### Bath v Leicester at Twickenham in a domestic Cup Final!

We enjoyed the experience of winning the European Cup in Bordeaux but the prospect of a great game on home soil in front of a passionate crowd is very exciting.

There is plenty of pride and reputation at stake this afternoon between two top teams vying to be the first holder of the Zurich Championship trophy. We are extremely pleased for everyone associated with Bath Rugby to be playing at Twickenham.

We have had some titanic encounters with Leicester over the years and today's will be no different. Leicester are on a treble and we wish them the very best of luck against Stade Francais next week.

Anyone fortunate enough to witness our win against Wasps last week would have seen the game at its best:

- The tremendous commitment and will to win on behalf of the players to turn a deficit of 24-7 to a winning advantage.
- The sheer elation on players' and supporters' faces at the end of such a physically demanding and exciting game.
- Our supporters and sponsors who realised the value of a competitive match played at the highest level. The match was a noisy, colourful and memorable spectacle and we naturally hope for a similar contest and result today.

The standard of play and level of support have been above expectation throughout the competition and these are positive indications for the future. This game should be a fitting finale to the English club season.

Thank you for supporting Bath Rugby

Enjoy the game

*Andrew Brownsword*
