EARLY DAYS.

The early days of the season often play a big part in ensuring the amount of support a club will get during such season. Early wins are accepted by many as an indication that a club has a good side and are worth supporting, but as often as not this is not the case. Early days are the same for all and it often happens that a side, beaten in the initial stages, turns the tables in no uncertain fashion in the return match.

Whilst, therefore, Bath's defeat at Weston-super-Mare last week, came as a disappointment to supporters, let it not be thought that the Club is going to be in arrears in the majority of its games. It is obvious to those who have watched the trials that the reverse is more likely to be the case. The fight for places in the first XV. has been very interesting and even now it is not at all certain that the sides as selected to date will prove to be the more or less regular teams. That is why the United field a strong side for their opening with Avonvale.

The United should beat most local sides, but the 'Vale, probably the most promising of local sides last season, must not be taken lightly. As the game at Bathford last April proved, they are never beaten and keep going to the end.

But, which ever side wins let it not be said that the other side lost support as a result.

Make the "Rec." your destination every Saturday afternoon, and get your season tickets now. W.C.S.
